

Weiß setzt Schwarz
in einem einzigen höchst
gelungenen Zug schachmatt.
Welcher ist es wohl?

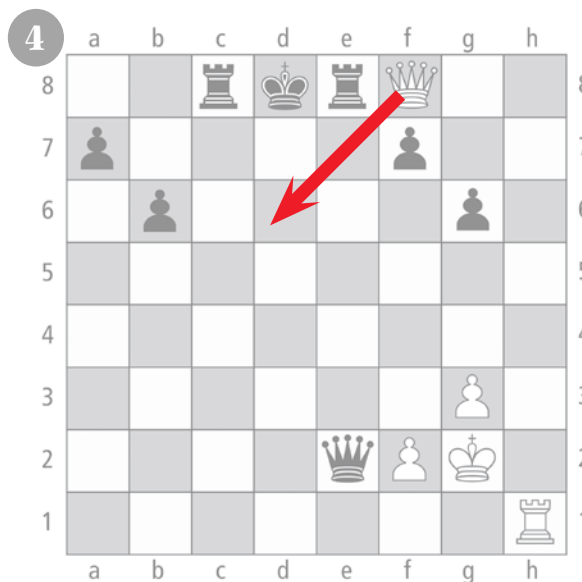

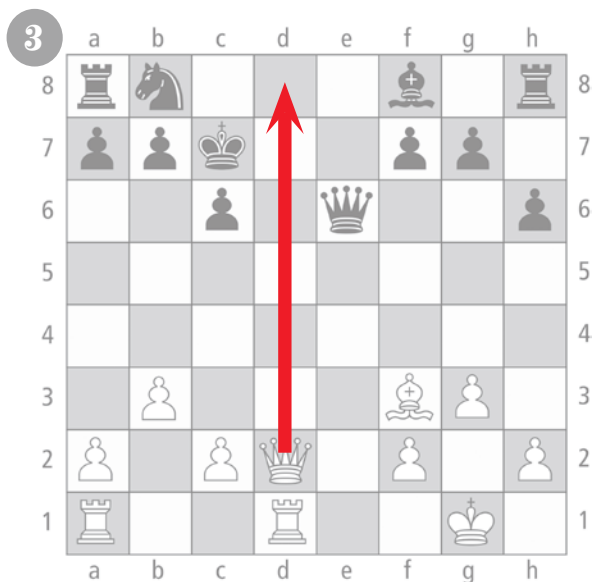

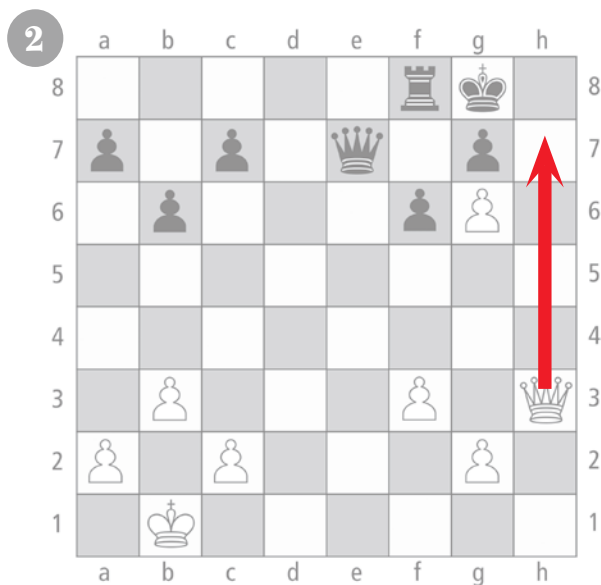

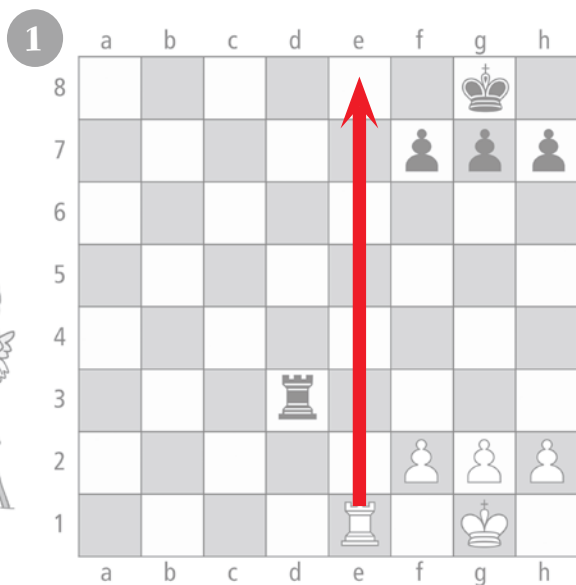

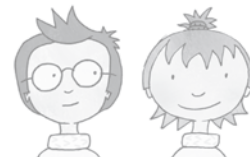

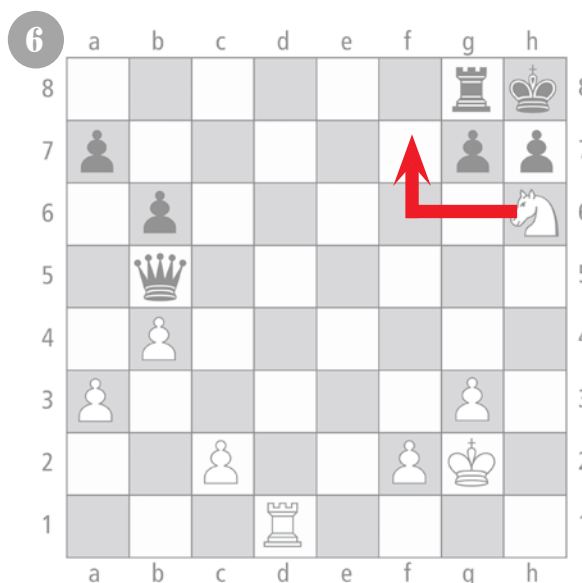

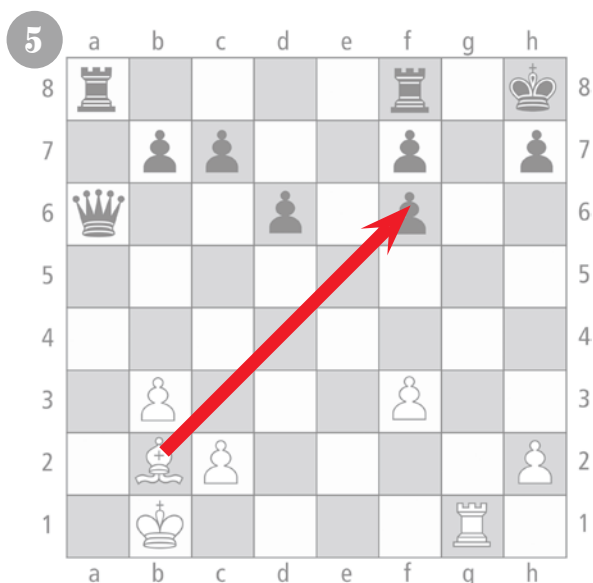

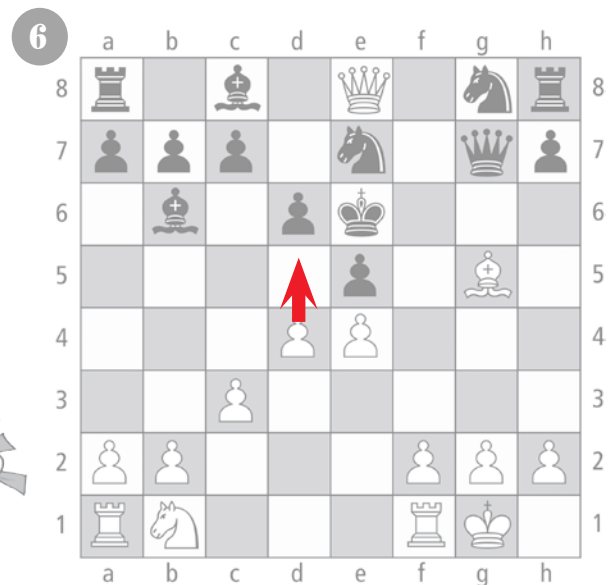

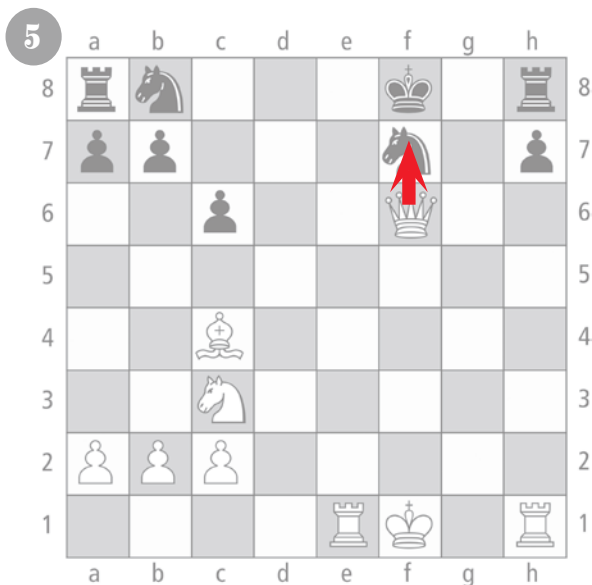

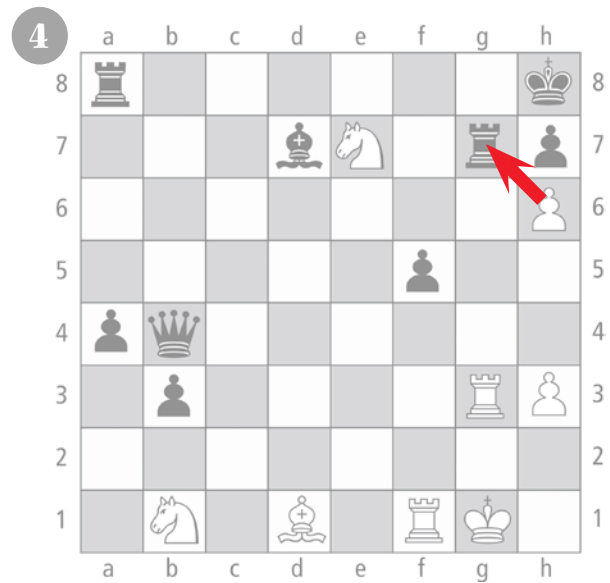

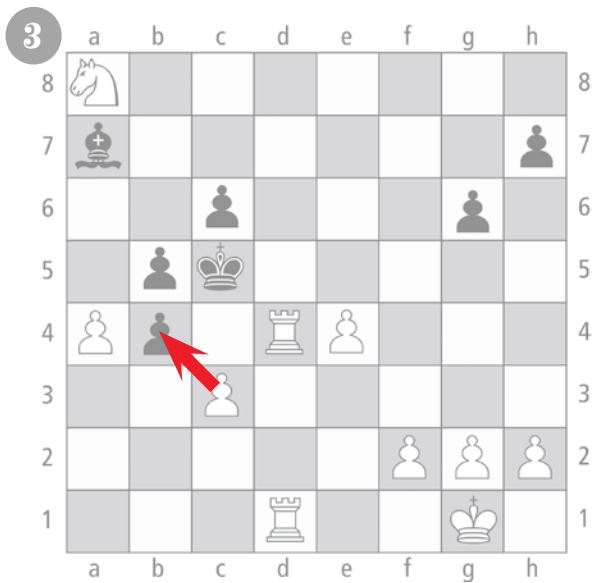

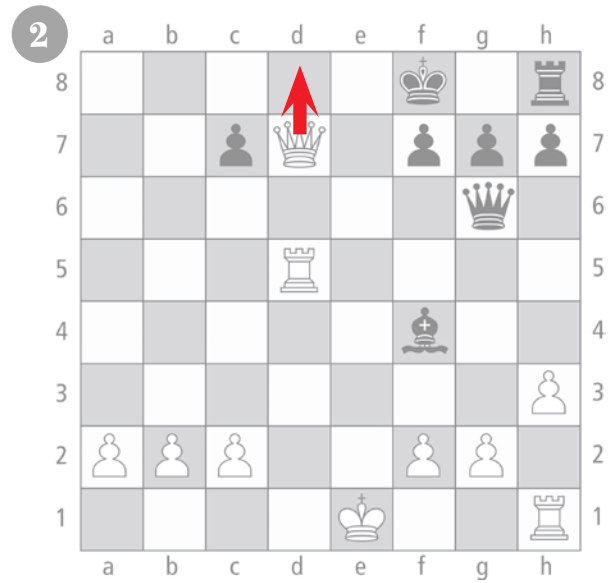

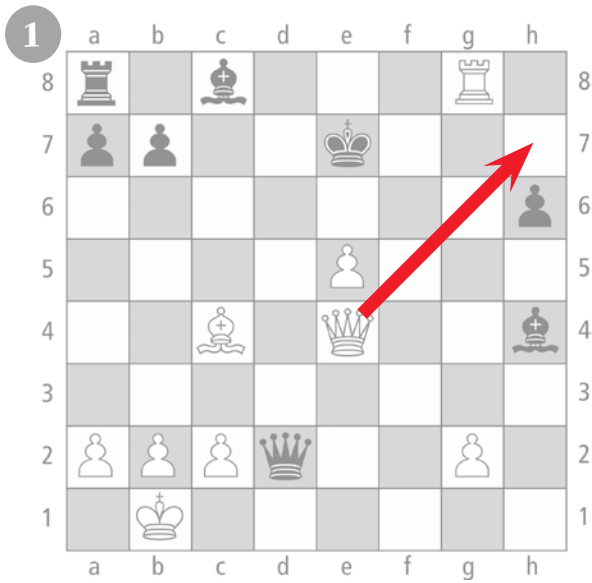

Ein Zug und Schwarz ist schachmatt. Welcher?

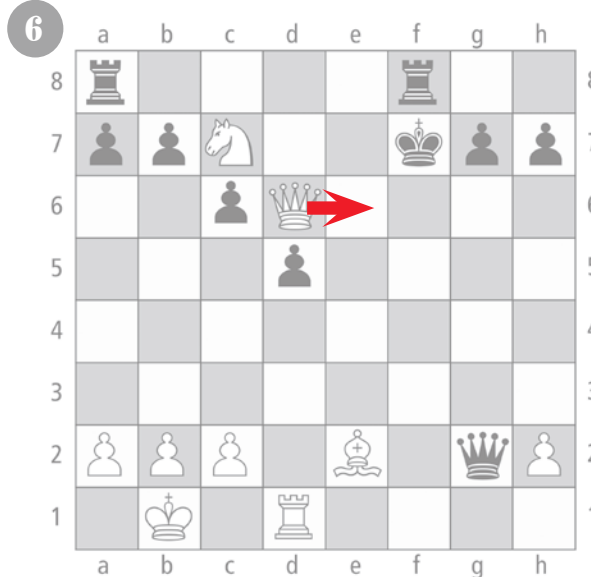

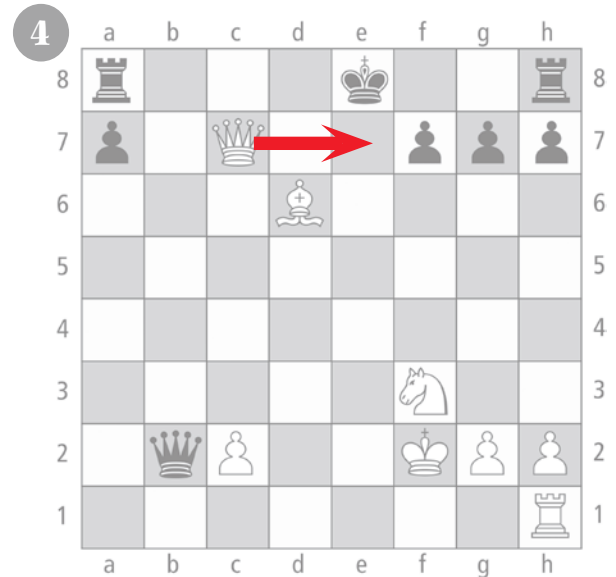

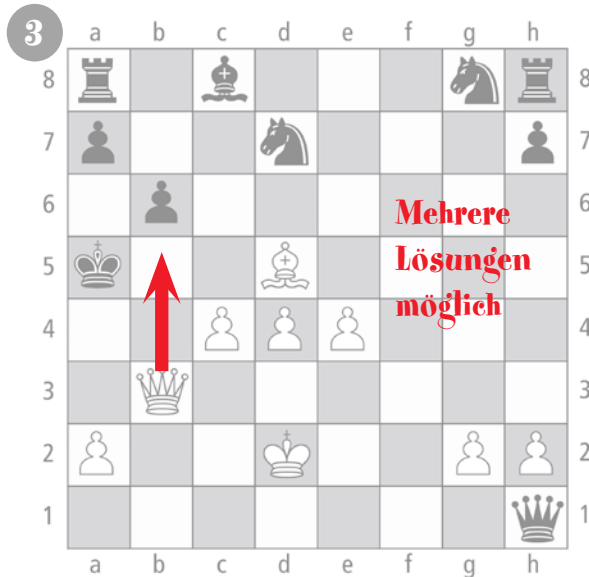

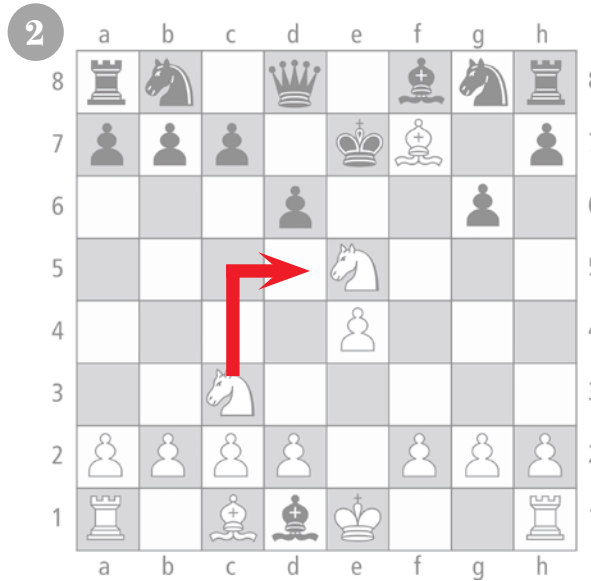

Schwarz ist
matt und aus
der Spuk. Fin-
dest du den
Siegerzug?

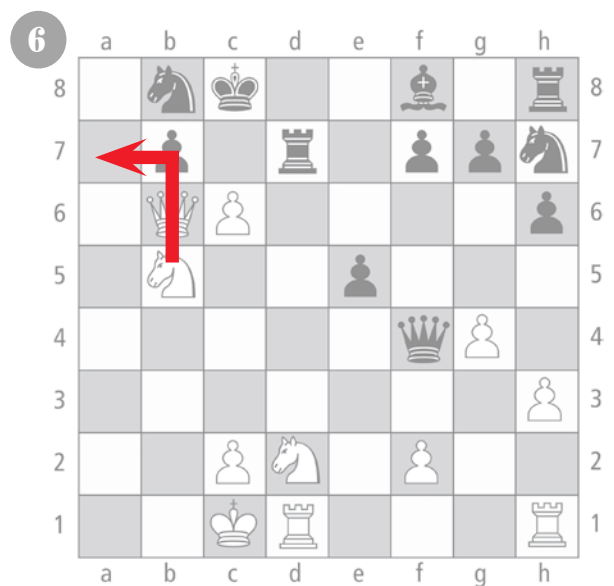

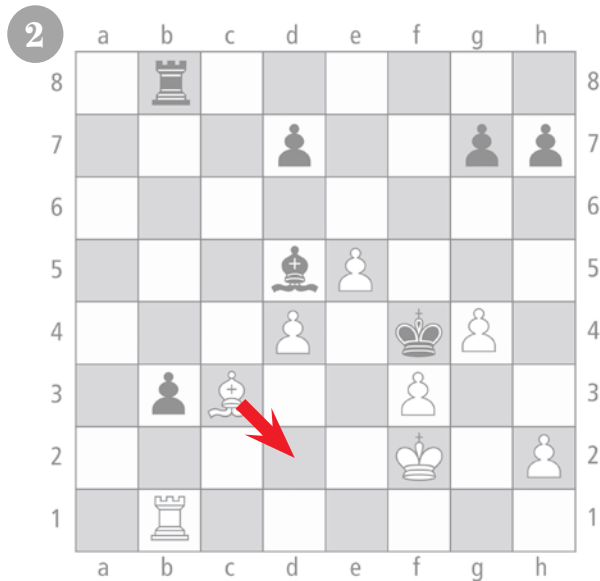

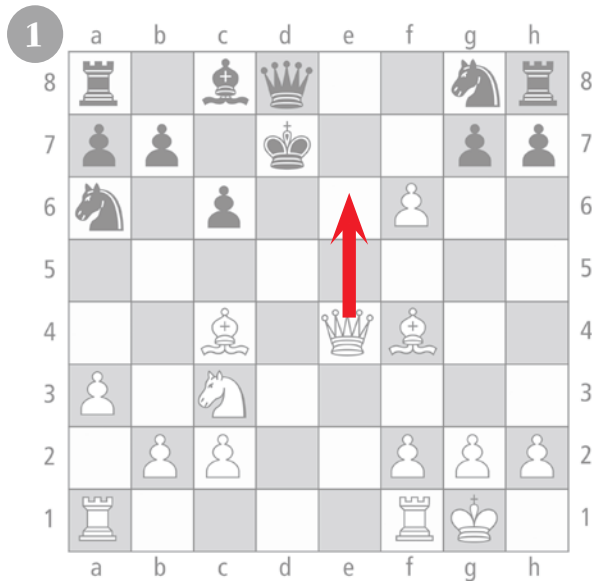

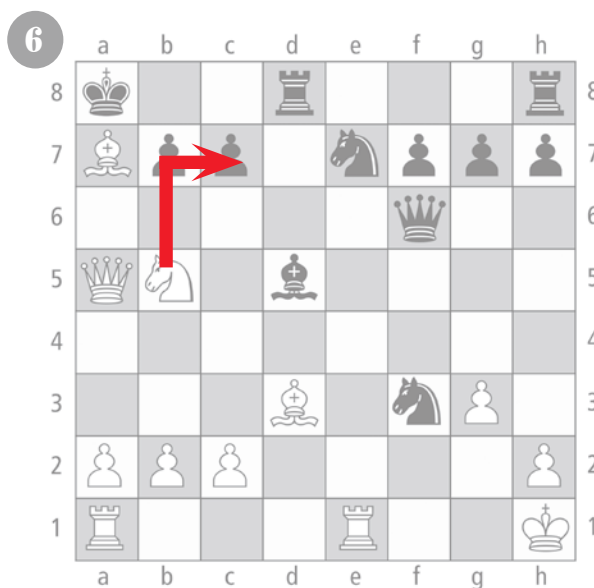

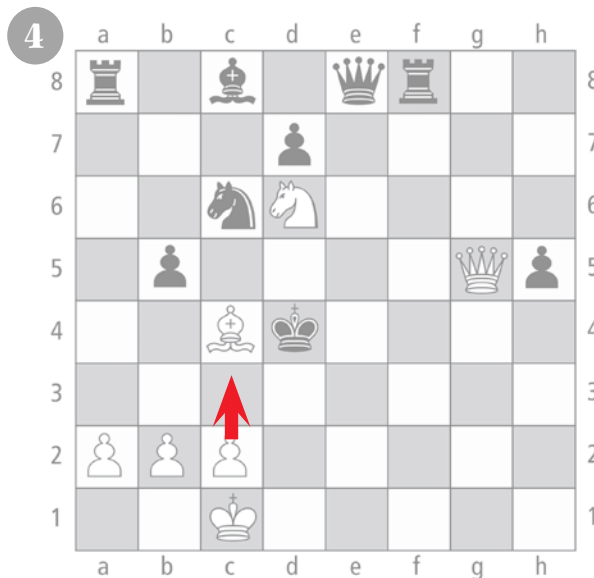

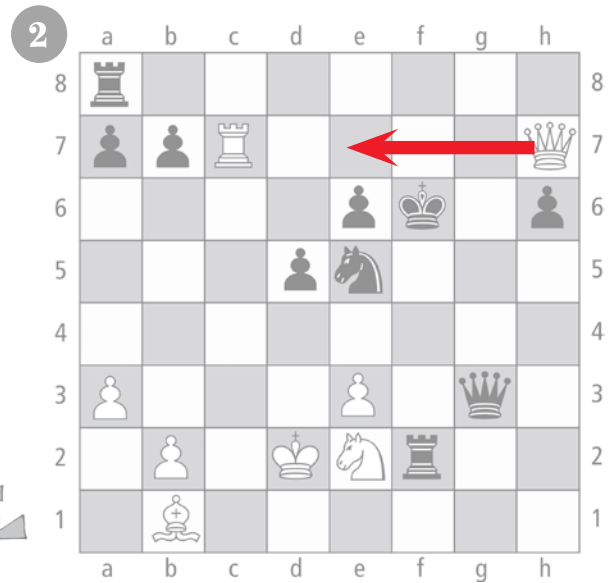

Ein Zug
und Schwarz
ist matt.

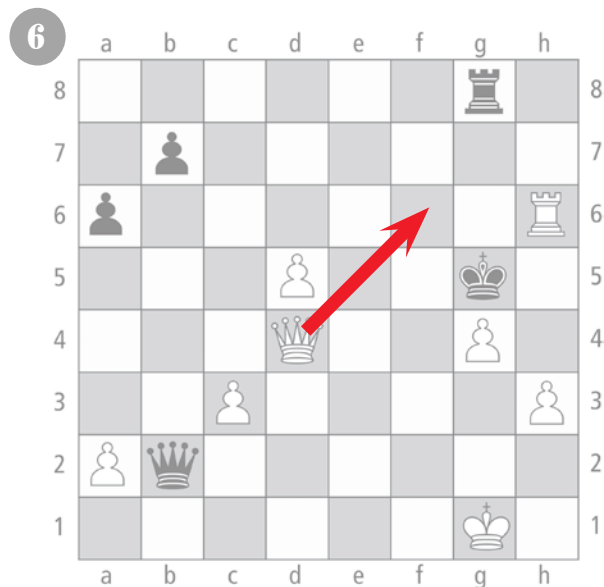

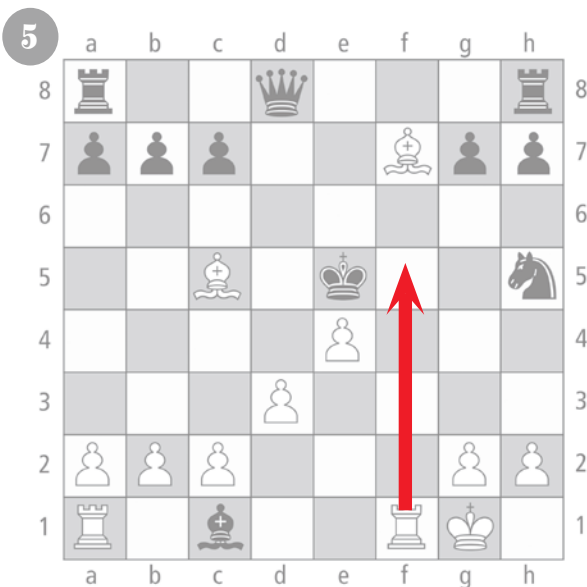

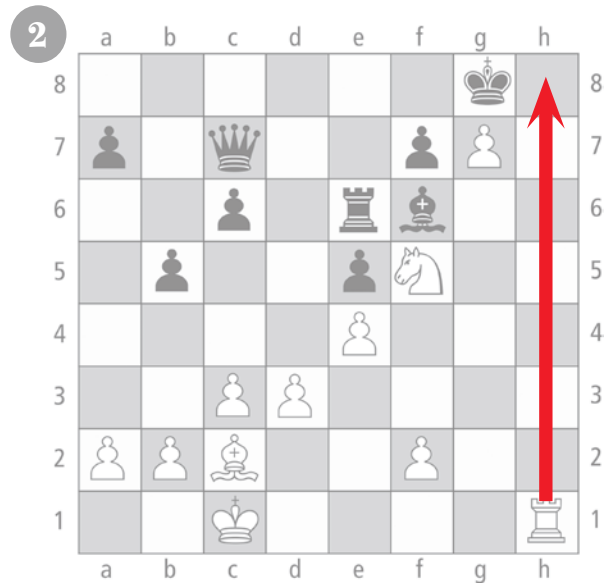

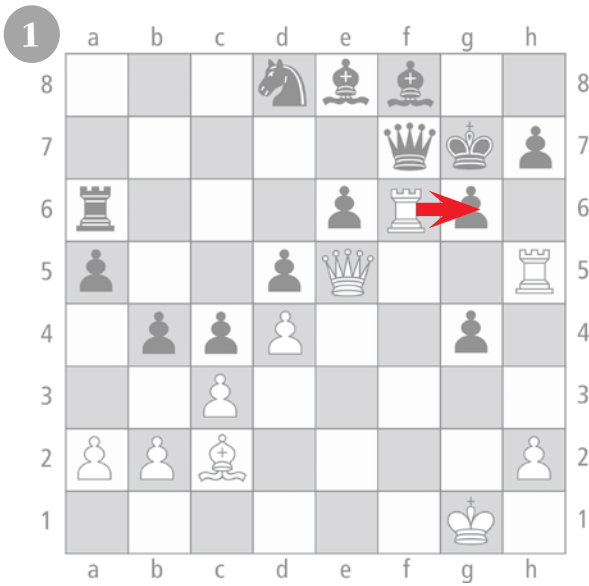

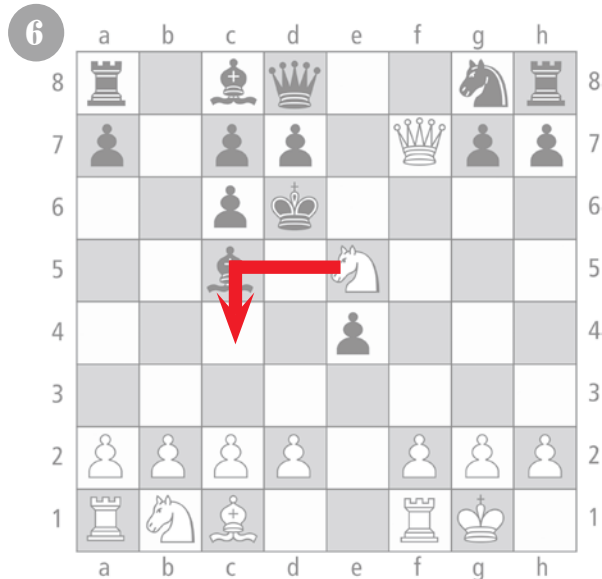

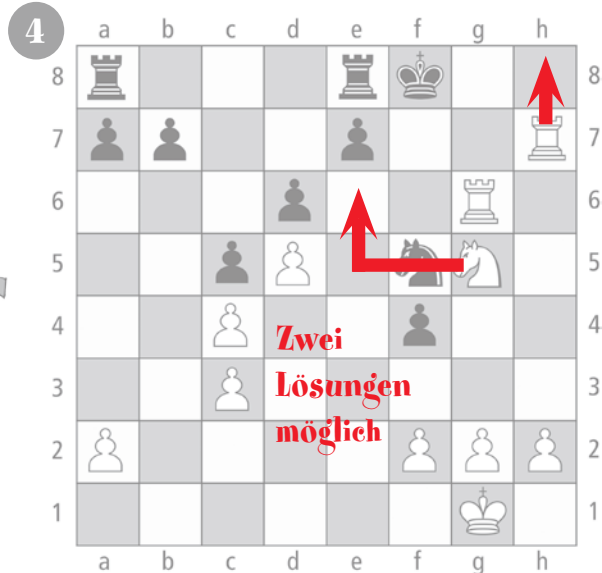

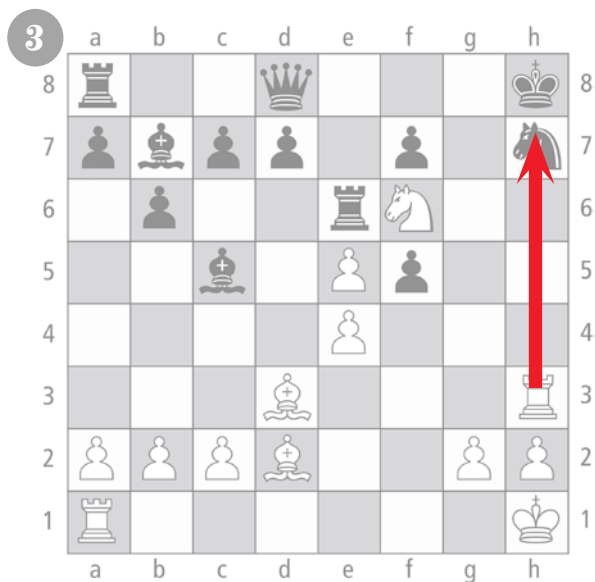

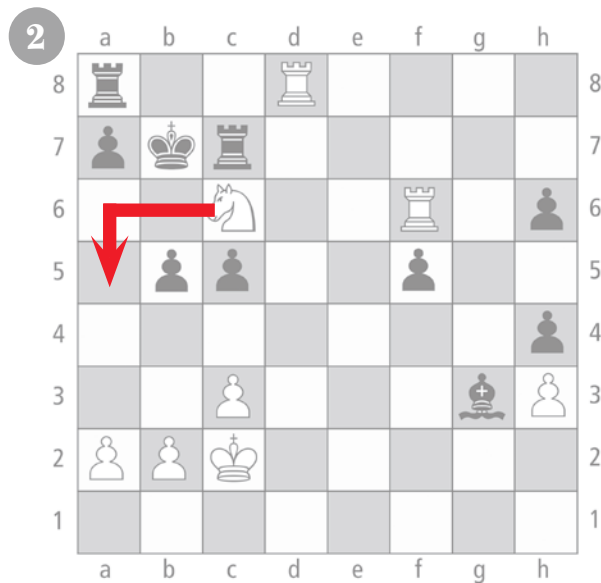

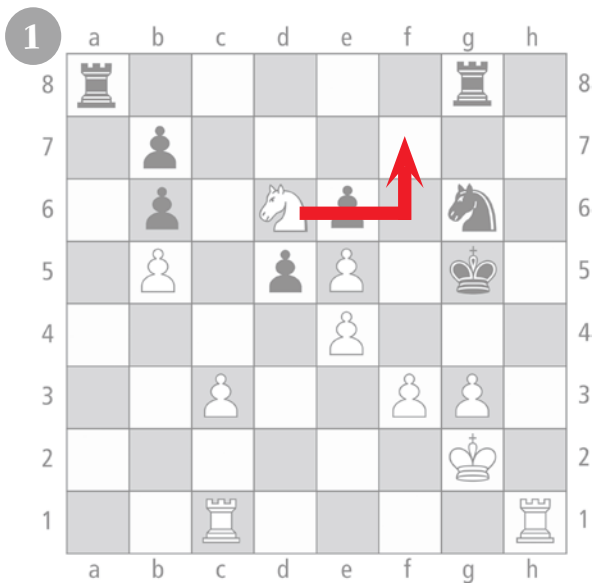

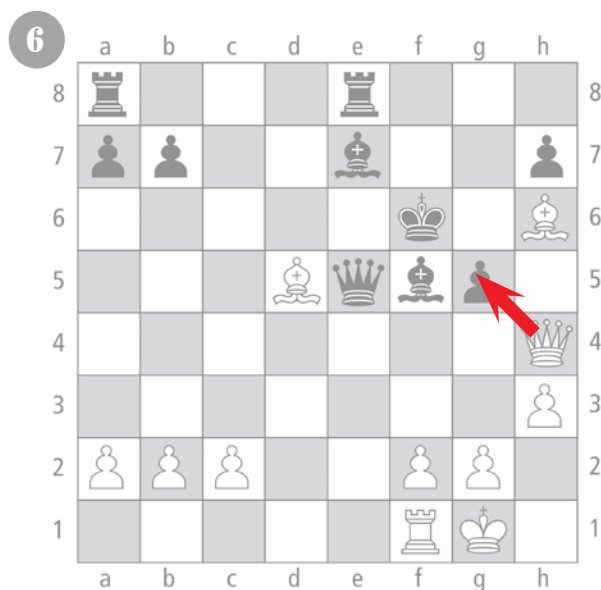

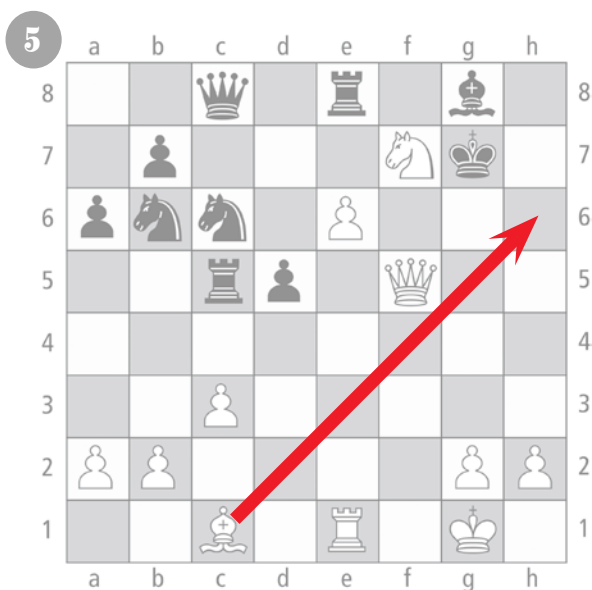

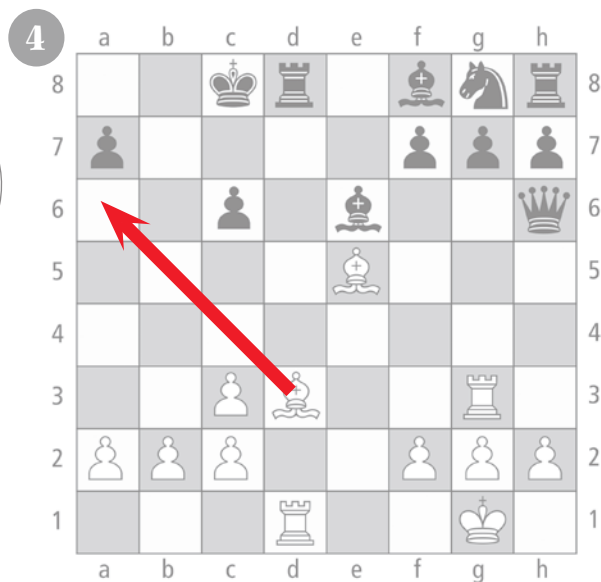

Ein Zug
und Schwarz
ist matt.

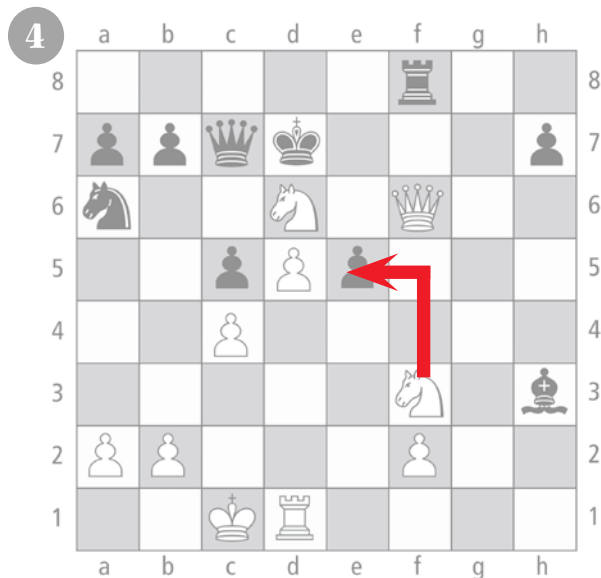

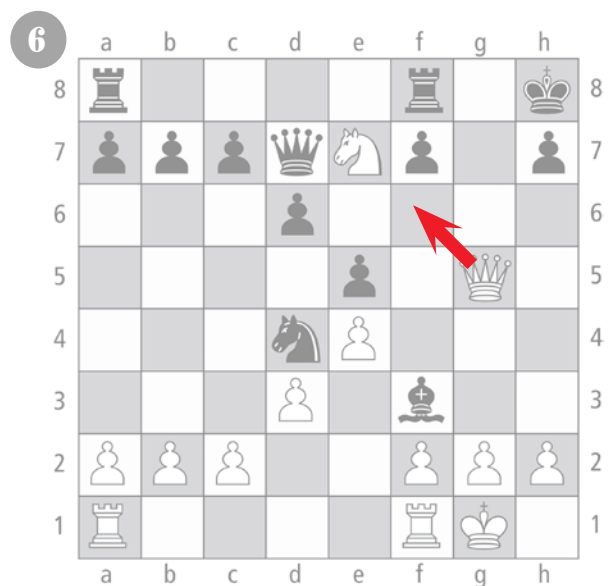

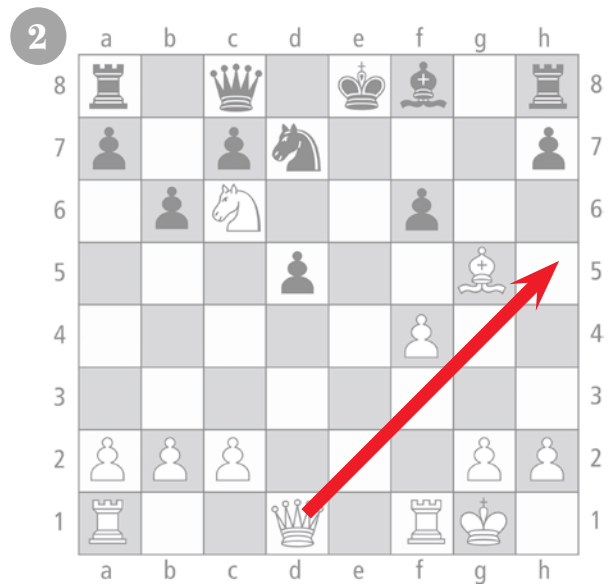

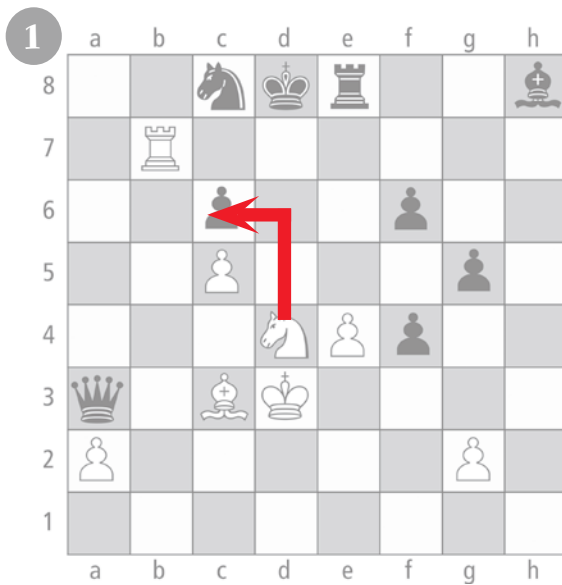

Ein Zug
und Schwarz
ist matt.

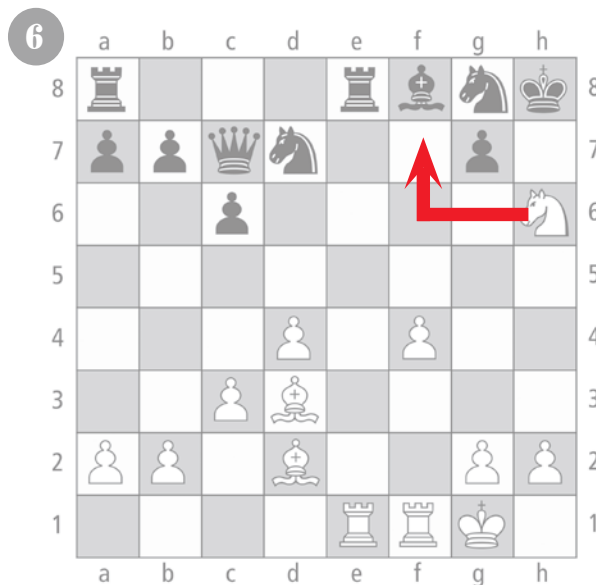

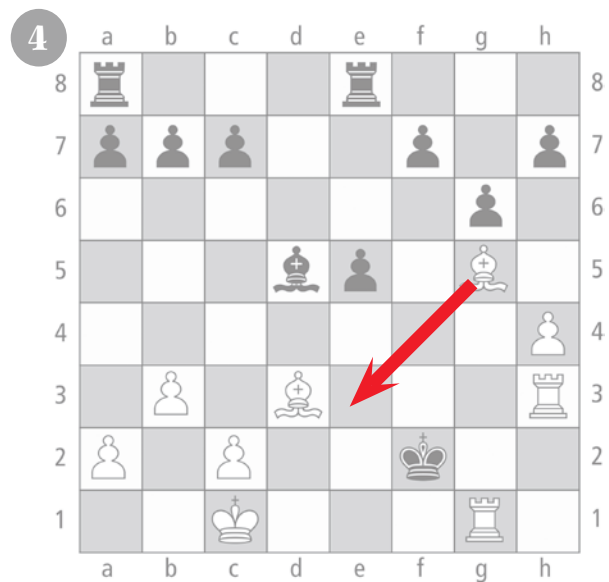

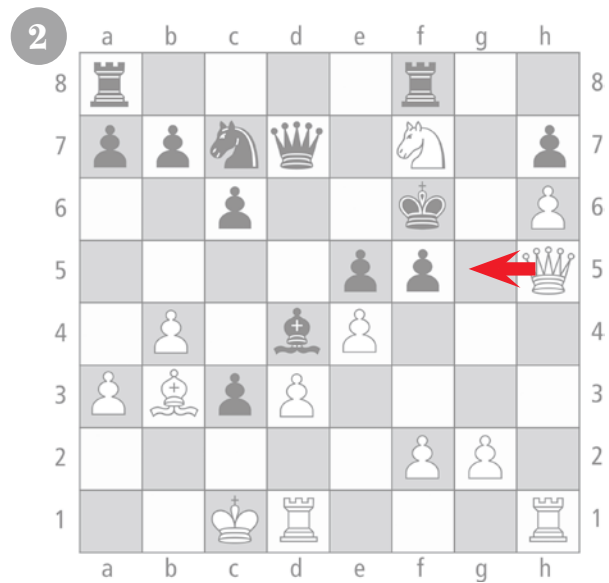

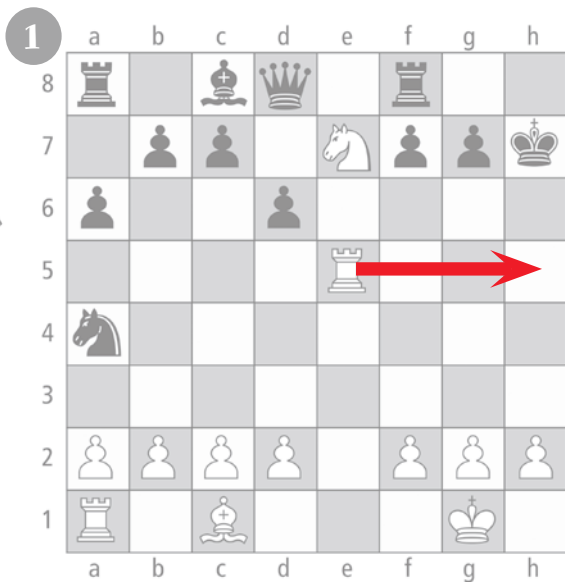

Ein Zug
und Schwarz
ist matt.

Ein Zug
und Schwarz
ist matt.

Ein Zug
und Schwarz
ist matt.
